Darwin, NT

Education

- **Charles Darwin University** — Darwin, NT
  Master of Information Technology (Information Systems)
- **SP Jain School of Global Management** — Sydney, NSW
  Bachelor of Data Science (CGPA: 3.66) – Dean's List — *Graduated*

Experience

- **Department of Children and Families, NT Government** — Darwin, NT
  Data Analyst — *Nov 2025 – Present*

  Domestic Violence Division

  - **Outcomes Measurement and Dashboards**: Designed and delivered Power BI dashboards aligned to agreed indicators and outcome measures for multiple DV programs, including RAMF, NTRAI, the Family Safety Framework and Women's Safe House. Structured measures to evaluate outcomes from multiple perspectives rather than activity alone, enabling program owners to assess the effectiveness of services.
  - **Data Engineering and Integration**: Developed data pipelines to ingest multiple sources and formats and consolidate them into a single, standardised master dataset, establishing one authoritative source for program reporting.
  - **Executive and Ministerial Reporting**: Partnered with the DV team to author the biannual report and prepared DV Estimates Briefs for the Minister for the 2026 Estimates hearings, presenting complex data as clear, accurate and defensible messages.

  Children and Families Division

  - **Indicator Reporting and Briefing**: Prepare Legislative Assembly (LA) Briefs on Out-of-Home Care indicators and measures, ensure accuracy, consistency and clear interpretation of results.
  - **CARE System Upgrade Testing**: Led testing of the September CARE system upgrade to assess its impact on data integrity and reporting. Produced the Test Plan and Test Results and collaborated with the Business Alignment Unit to communicate impacts and implications of the upgrade to stakeholders.
- **SP Jain School of Global Management** — Sydney, NSW
  Neuroscience Lab Assistant — *Sep 2023 – Sep 2024*
  - **Research Methodology and Analysis**: Co-authored a research paper on stress perception, decision-making and risk-taking. Designed and conducted four behavioural and psychological assessments, analysed participant data and identified a significant correlation between stress levels and engagement in holistic activities.
  - **Experimental Program Development**: Developed the *Iowa Gambling Task* program for the experimental setup, supporting rigorous and repeatable data collection.

Technical Skills

- **Microsoft Fabric**: end-to-end analytics workflow in OneLake – Lakehouse and Warehouse design, Data Factory pipelines and Dataflows Gen2 for multi-source ingestion, PySpark/SQL Notebooks for transformation, medallion (bronze–silver–gold) modelling, semantic models and Power BI reporting, pipeline scheduling and data quality checks
- **Reporting & BI**: Power BI (DAX, Power Query, semantic modelling, row-level security), Tableau, Alteryx
- **Programming & Analytics**: SQL, PostgreSQL, Python (Pandas, NumPy, scikit-learn), R (tidyverse), PySpark
- **Data Engineering & Delivery**: ETL/ELT pipelines, Airflow, Snowflake, AWS (S3, Redshift, Glue), Git, CI/CD, workflow automation

Certifications & Awards

- **Certifications**: Certified Data Engineer & Data Analyst - Datacamp; Google Professional Data Analyst; Alteryx: Data Preparation & Machine Learning; Fabric Analytics Engineer Associate; GitHub Foundations
- **NT Digital Excellence Award 2025 – Winner**: Most Outstanding Entrant at CDU Code Fair for for turning real community and workplace problems into working data products.
- **RIMPA Global Hackathon 2025 – Winner (AUD $10K)**: Built a dashboard that tracks emissions and records, helping businesses spot where they can improve their environmental, social and governance (ESG) performance.
- **IT Code Fair 2025 – Multiple Category Winner (Business Innovation, Research, Coding and Poster)**: Won multiple challenges and competitions across categories, using data and coding knowledge to build practical solutions to real business, research and technical problems.
- **GovHack 2025 – Winner**: Built a gamified application that helps new arrivals to Australia understand new policies, laws and their rights, turning complex government information into simple, interactive learning.
